

Well-Being Model for Dementia Care & Dementia Champion Certifications

Regional Workshops Presented by Arkansas Quality Partners

What is the Well-Being Model for Dementia Care?

The Well-Being Model for Dementia Care was developed to assist in creating and sustaining a culture of person-centered care for those living with dementia in the long-term care setting. This model was designed to provide low-cost, less intrusive, and safer alternatives for residents and healthcare providers alike when practiced consistently. This ultimately reduces poor health outcomes, hospital and geriatric-psychiatric admissions, and the cost of dementia care for facilities.

Who should attend?

EVERYONE! Administrator, DON, ADON, Nurse Consultant, CNAs, Social Service, and Activity Directors – Anyone that has contact with patients living with dementia.

Who is the "Dementia Champion?"

The Dementia Champion is someone who is currently in a leadership position (i.e. DON or ADON) who will lead the Well-Being Model Initiative. The last two hours of training will be geared towards equipping the Dementia Champion with the information they need to lead their facility in the Well-Being Model. The Dementia Champion will also receive a second certification for completing this 2-hour Dementia Champion training.

Space is limited. Advanced registration is required. Payment due by day of training. Confirmation and additional information will be sent to the email address provided.

Tuesday, August 6, 2019

Schmieding Center Auditorium 2422 N. Thompson, Suite B **Springdale,** AR 72764
